## Quality Action Plan

### Programme Year 2023/2024

#### Description

This is our Quality Action Plan for 2023/2024. We are undertaking many courses to further our understanding on Diversity and Inclusion through auditing our environment, our books and through online resources from [chime.ie](http://chime.ie). We are introducing Irish Sign Language through colours, numbers, alphabet and songs. We have four children in the AIM Programme and children from different ethnic backgrounds so Inclusion is very important in our service. By doing courses new concepts and ideas are brought into the service to enhance the quality of the environment for everyone involved.
