Quality Action Plan

Programme Year 2023/2024

Description

This is our Quality Action Plan for 2023/2024. We are introducing Irish Sign Language through days of the week, colours, numbers, alphabet and songs. We have three children in the AIM Programme and children from different ethnic backgrounds so Inclusion is very important in our service. Through Better Start we have taken part for the last two years in the (CLIL) Content and Language Integrated Learning. All the parents and children had to sign a consent form to take part in Irish conversation through songs and poems and during lunch time. All the team did an Irish course online also. The children really enjoyed the Irish words and we noticed that children who had English as a second language learnt Irish very easily. We will take part again this year 2024-2025. If a parent wants to enrol their child in a Naíonraí this will help with their application so going forward using Gaeilge in the classroom enhances every child's learning.
